

NEXT VIZON

Optometry Solutions

INFOTECHNEXT SYSTEMS INC.

ABOUT INFOTECHNEXT

Infotech next, headquartered in Calgary, Canada, is a forward-thinking software company with global outreach. Our mission is simple: help businesses Go digital and Go paperless. Recognizing the challenges faced by modern optometry practices— rising patient expectations, increasing administrative burdens, and the need to stay competitive in a digital-first world—We developed Next Vizon Optometry Software. This flagship solution brings all essential functions into a single, intuitive platform, enabling clinics to streamline operations, minimize errors, and enhance overall efficiency. Infotechnext takes pride in being fully Canadian owned, operated, and controlled, with a strong commitment to supporting the self-reliance and growth of the Canadian economy.

CHALLENGES

Many practices and stores still rely on paper files, spreadsheets, or outdated systems. While these methods keep things running, they often lead to misplaced records, errors in prescriptions and billing, wasted staff hours, and frustrated patients who expect a faster, digital-first experience. Inventory tracking, doctor scheduling, insurance forms, and reporting all become time-consuming and error-prone, affecting both profitability and quality of care for customers.

NEXT VIZON AS A SOLUTION

NEXT VIZON is designed to prevent mistakes that you encounter everyday. It is a modern, cloud-based platform built specially for Canadian Optometrists and Clinics. It unifies patient records, appointment booking, exam results, billing, insurance forms, and inventory management into one secure, paperless system. Everything works seamlessly together—reducing duplication, cutting down errors, and making information available anytime, anywhere, on any device.

OUR MISSION AND VISION

Our Vision

To be the **most innovative healthcare solutions provider in Canada**, setting new standards for excellence in the optical industry.

Our Promise

We empower eye care providers with **seamless technology** that enhances patient care, streamlines clinic operations, and drives efficiency. Our goal is to help **eye exam clinics and optometry stores fully embrace a digital, paperless approach.**

Our Mission

To **Simplify** the way optometry clinics operate. We are committed to helping clinics **reduce administrative burdens, eliminate errors, and improve patient satisfaction**, while delivering **secure, affordable, and future-ready solutions** supported by comprehensive training and dedicated support.

Our Commitment to Canada

As a fully Canadian-owned and operated company, we aim to **strengthen the Canadian economy** by promoting self-reliance and reducing dependence on foreign healthcare solutions, all while empowering local clinics to thrive in a modern, digital-first environment.

CANADIAN OPTOMETRY **GROWTH HURDLES**

Loss of frames or inventory tracking issues

Wasting Time & paper to get signatures

Limited ability to track orders and invoices in one place

Staff stuck in Insurance work

Difficulty in managing doctor schedules and patient bookings

Feeling left behind relying on old software

NEXT VIZON **AS A SOLUTION**

Next Vizon is Canada's latest and rapidly growing Optometry software. What really sets Next Vizon apart is how it brings all aspects of your clinic into one place. Insurance forms are filled electronically, patient consent and invoices can be signed digitally and family billings can be grouped together to make patient management easier. Each Frame is trackable from order dashboard and history tracking.

Clinics that use Next Vizon witnessed their administrative work loads go down, costly errors reduce drastically and customer satisfaction improved almost immediately. On top of that we guarantee to beat your existing subscription cost.

The best part is that with Next Vizon, you don't just get a software – you get a Partner.

INTRODUCTION

NEXT VIZON *Optometry Software*

NEXT VIZON is a modern, cloud-based platform designed specifically for Canadian optometrists and optical retailers. It's an all-in-one solution that allows you to manage your clinic, your clients, and your business operations from anywhere and on any device. With NEXT VIZON, your clinic can finally go paperless. Patient records are always at your fingertips, appointment booking is handled online directly from your website, and exam results flow seamlessly into prescriptions, billing, and insurance forms. Everything is integrated, so there's no more duplication of effort or risk of error.

What really sets NEXT VIZON apart is how it brings all aspects of your clinic into one place. You can track every order and transaction from a single dashboard, manage payments and staff attendance or performance and even day closing. Insurance forms are filled electronically, patient consent and invoices can be signed digitally and family records can be grouped together to make patient management easier.

Even if something is deleted by mistake, soft delete and history tracking make recovery simple because everything is securely stored on certified Canadian servers, you never have to worry about compliance or data loss.

Clinics that use NEXT VIZON often see their administrative workload cut in almost half, costly errors reduced drastically, and customer satisfaction improve almost immediately. On top of that, we guarantee to beat your existing subscription costs, so you'll actually be saving money while upgrading to a modern, more efficient system.

So, instead of letting paperwork and outdated systems slow you down, let us show you how NEXT VIZON can transform the way you run your practice.

KEY OF SUCCESS

What truly sets NEXT VIZON apart is its focus on empowering Clinics and Optical retailers to deliver better care while lowering costs. With secure Canadian data storage, digital consent and invoicing, real-time reporting, and easy recovery features, Businesses can focus on patients instead of paperwork. The best part is that with NEXT VIZON, you don't just get software—you get a partner. We provide free training, free onboarding, and free ongoing support to make the transition smooth and hassle-free. You can try it completely free, with no credit card required, and experience the future of optometry for yourself.

The success of NEXT VIZON lies in its ability to simplify and unify every aspect of an optometry practice into one seamless platform. By replacing paper files, spreadsheets, and disconnected tools with a fully integrated, cloud-based system, it reduces errors, saves time, and allows clinics to operate more efficiently. From patient records and appointment booking to billing, insurance, and inventory, everything works together to eliminate duplication and streamline daily tasks. You can add multiple products also into your portfolio within same software.
