

Many clients are still relying on a mix of paper records, spreadsheets and outdated systems. While that may keep things running, it often results in misplaced files, errors in prescription & billing, wasted staff hours and ultimately frustrating experience for customers who now expect a faster digital first service.

CANADIAN OPTOMETRY **GROWTH HURDLES**

Loss Of Frames Or Inventory Tracking Issues

Wasting Time & Paper To Get Signatures

Limited Ability To Track Orders & Invoices

Staff Stuck In Insurance Work

Difficulty In Managing Bookings

Feeling Left Behind Relying On Old Software

NEXT VIZON **AS A SOLUTION**

Next Vizon is Canada's latest and rapidly growing Optometry software. What really sets Next Vizon apart is how it brings all aspects of your clinic into one place. Insurance forms are filled electronically, patient consent and invoices can be signed digitally and family billings can be grouped together to make patient management easier. Each Frame is trackable from Order Dashboard and history tracking.

Clinics that use Next Vizon witnessed their administrative work loads go down, costly errors reduce drastically and customer satisfaction improved almost immediately. On top of that we guarantee to beat your existing subscription cost.

The best part is that with Next Vizon,
You don't just get a software - You get a Partner.
